For over 20 years MASS' comprehensive exercise delivery service has been trusted by UK and international military headquarters to prepare for operational and strategic level planning.

Our range of services have a common hallmark of proven pedigree, bespoke design and first-class delivery through a partnered approach.

Our training embraces the full range of real-world challenges from humanitarian assistance and disaster relief, counterinsurgency to complex conventional warfare as well as crisis response in media, social media and cyber arenas. Whoever the training audience and whatever the objectives, our service is carefully tailored to your requirements to ensure you can train as you would operate.

TRAIN AS YOU WOULD OPERATE

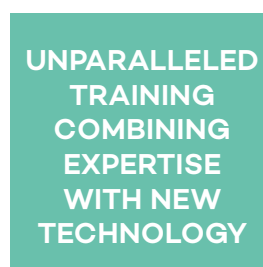

For training exercises to be effective, they must be delivered within a realistic and immersive environment that accurately reflects your operational environment. By combining knowledge and experience from our experts with cutting edge digital technologies, we're able to deliver a rich and immersive experience that enables command and staff teams to train as they would operate.

From bespoke, near-real world scenario planning to incorporating new, cutting edge digital technologies such as AI models and 3D animation, we're re-defining what's possible within your training environment. Working alongside our industry partners, we'll provide your teams with a dynamic, scalable and realistic training environment that enhances your decision making, war-fighting readiness and strategic integration across all domains.

We also provide the same bespoke service to large non-military organisations for contingency rehearsal.

PROFILE

MASS is an independent, global technology company, trusted by highly-secure organisations to provide advanced, digital services that manage data and keep information safe. With our heritage in defence, we offer robust solutions to sectors where security expertise is essential. We work in partnership with customers, using skilled, technical experts. We think innovatively to provide tailored, agile and resilient solutions that secure advantage, so you're ready for digital transformation.

TRUSTED TO DELIVER

MASS is trusted by the UK and nations around the world to deliver digital tools, services and training.

TAILORED SOLUTIONS

HIGHLY SKILLED EXPERTS

Our people are experts at what they do. Highly technical, endlessly curious and always approachable.

WHAT DOES THE EXERCISE DELIVERY SERVICE INCLUDE?

Deployable across the globe

Whether at your home military base, a remote military training site or a location of your choice, our training service is fully deployable anywhere in the world. Our state-of-the-art synthetic wrap enhances training effectiveness to create a dynamic exercise management system that responds to the needs of your team.

Effective Lessons Support Service

Our Lessons Support Service will enable you to identify opportunities to learn lessons, then implement a process that turns Lessons Identified into Lessons Learned. Trusted by organisations such as UK MOD and the UK National Health Service, we'll help you effectively identify and implement Lessons Learned from every scenario, event or exercise to ensure your organisation is always improving.

Specialist preparation

We enhance your operational capabilities, enabling you to respond to complex, real-world events. Our portfolio, based on proven delivery, is constantly updated to reflect the current challenges of each area of operations.

Seamless data management

Our data management solutions enable you to harness the true value of your data using the latest software tools that integrate with multiple software platforms, including C2 applications.

Deployable Classified CIS solutions

We provide secure, classified single or multi-site CIS solutions with the ability to also build, test, install and manage IT service or any combination of these services, anywhere in the world.

Unrivalled military knowledge

All our training is delivered by a team of ex-military personnel, diplomats and specialist associates, each bringing their own relevant, in-depth knowledge and expertise.
